Union HRD Minister interacts with heads of 45,000 Higher Educational Institutions through a Webinar in New Delhi

Shri Nishank urges all Higher Educational Institutions to take part in NAAC accreditation process

All Universities must constitute a special cell to address various issues of students arising out of special circumstances due to Covid 19- Shri Nishank

Posted On: 28 MAY 2020 7:37PM by PIB Delhi

Union Human Resource Development Minister Shri Ramesh Pokhriyal Nishank interacted with Heads of more than 45,000 Higher Educational Institutions across the country today through Webinar hosted by National Assessment and Accreditation Council (NAAC), Bengaluru. The Minister addressed and Interacted with a Galaxy of Academicians comprising participation from Vice Chancellors / Registrars / Professors / IQAC heads / Principals / Faculty from across the Nation.

While lauding the initiatives taken by NAAC at this time of the Pandemic, Shri Pokhriyal called upon the HEIs in the country to treat the current situation as an opportunity to overcome limitations in the system. He called upon the educationists, students, parents to switch-over to the online method and make the most of the situation so that the academic session of the
students and the HEIs are not interrupted. He said there is an urgent need to improve and enhance the Online ecosystem in India & educators should contribute to enhance the reach so that online education reaches even the rural areas.

In the hour long interaction and address, the Union Minister reflected on various issues and concerns raised by educationists related to Academic Calendar, Online Education, examinations, Fees, Mental health of students, problems of students, fellowships, NEET, entrance examinations etc. He dwelt upon at length on the initiatives taken by the Government with regard to Swayam Prabha, Deeksharambh, Paramarsh and a host of other special initiatives taken during the pandemic period. He also urged all Higher Educational Institutions to take part in NAAC accreditation process. He reiterated that the Prime Minister of India Shri Narendra Modi is very concerned about the well being of Higher Educational Institutions and assured of all help in furthering the academic activities of student fraternity.

The Union Minister asked all Universities to constitute a special cell which will be empowered to address the issues of students related to academic calendar and examinations arising out of special circumstances due to Covid 19. He said that a task force has been created in UGC and NCERT to resolve the different issues of students. Shri Nishank assured that Ministry is committed to provide all assistance to students in the time of crisis. During the interaction the Union Minister highlighted the process of how the new session will be commenced, at the same time he specified that the priority will be given to the safety of the students.
Shri Nishank called educational fraternity as Corona Warriors because in this extraordinary situation they are working round the clock to provide quality education to students.

The event was also graced by Chairman, UGC, Prof D P Singh, Prof Virander S Chauhan, Chairman, EC, NAAC. Prof S C Sharma, Director, NAAC spoke & coordinated the event.

HRD Minister addresses colleges HIGHLIGHTS: New quality assessment system for online education soon

HRD Minister address colleges HIGHLIGHTS: From final year exams to the online education assessment system, the HRD minister has made several announcements during interaction with higher education institutes.
HRD Minister address colleges HIGHLIGHTS: The Union Minister of Human Resource Development (HRD) Ramesh Pokhriyal Nishanak, in an address to higher education institutes through live hosted by the National Assessment and Accreditation Council (NAAC), said that the exam for students in the final year or semester will take place in July, as decided by UGC. He said today, in areas where the situation does not improve, then the exams will be held later but will be conducted for sure. The rest of the students to be promoted based on the past academic record as well as internal assessment.

Read | Why are students across India opposing online exams?

The minister also said that efforts are being made to ensure that 7.5 lakh students who go abroad from India for higher education will find their future here in India. Further, foreign students will come to study in India through online courses provided by top Indian institutes. Indian teachers will be in demand in foreign nations.

He also added that to ensure that online education reaches everyone and is of high quality, NAAC will come up with new evaluation, assessment, and accreditation parameters soon. The minister is joined by the UGC chairperson. The minister had sought suggestions and queries from teachers, principals, and administrators.

**18:51 (IST) Students can raise issues with COVID-19 task forces**

Students will have grievance redressal options at different levels starting from department or college level to UGC level and as much as with the Ministry, said the Minister. The UGC has set-up a COVID-19 task force and all colleges have been asked to set up the same. Students can raise their grievances and task forces have been asked to resolve matters in a time-bound manner. Further, colleges have also been asked to set-up mental health helplines.

**18:21 (IST) What if coronavirus situation does not improve by July?**

For final year students, the minister said the term-end exams will be conducted. "If the situation does not improve by July then for then, new dates or modes of conducting exams can be thought about but the exam will take place for final year students," he said. Read full statement here

MHA and Ministry of Health giving suggestions on exams too

UGC has a task-force to finalize on how and when the final year exams can be conducted. We are talking recommendations from the Ministry of Health and Ministry of Home Affairs (MHA) on the same. The security and health of students are paramount to us, so we can opt to promote first-year students based on internal assessment, second-year students can be promoted based on the basis of inter assessment (50%) and previous academic record (50%). But, for final year students exams will take place, said the HRD Minister.

17:16 (IST)  28 MAY 2020

Academicians are also corona warriors: HRD Minister

I call academicians warriors. Teachers and those in the education sector are also corona warriors. To ensure students are secure, motivate, and educate. To communicate with students every day and constantly is a huge task and they have done it well, says HRD Minister.

16:35 (IST)  28 MAY 2020

Quality education in remote areas

The Minister said that the HRD ministry is working to ensure that quality education reaches to remote parts of the country. In this live the Ministry of HRD has recently made several announcements for the North East region. The government has granted establishment of a permanent campus of Sikkim University (a Central U, Yangyang at a cost of Rs. 986.47 crore. The government of Sikkim has land at cost of Rs. 15 crore, out of which 265.94 acres of land has been to the University. The handing over of remaining land is under process.

16:27 (IST)  28 MAY 2020

600+ higher education institutes set-up as quarantine centers: HRD Ministry

Institutes across the nation are being converted into isolation/quarantine centers. We thank these institutions for coming forward to join us in the fight against coronavirus, the Ministry wrote in a tweet. So far, over 600 institutes have been converted into isolation centers, as per the ministry data.

16:21 (IST)  28 MAY 2020

UGC chairperson addresses institutes

Teachers should have a love for teaching and love for learners, said DP Singh, chairperson UGC. He added that this is the time when India will have to create minds and youth who are empathetic to all and thinks of the betterment of the world.
Work in mission mode: HRD minister to institutes

Institutes should participate in accreditation and assessment systems. They might not get ranking in the first year but maybe the next year. We need to work hard and work in a mission mode. Those who work hard are the happiest. Colleges have the future of the nation in their hands, said the minister.

Educationists are the torchbearers for new India: HRD Minister

The vice-chancellors, principals, teachers are touching lives of 33 crore students and if their parents are included, nearly 100 crore lives are touched by them on a daily basis. They are the students who will shape the new India and academicians are acting as the torchbearers for them and hence the new India, said the minister in his address to higher education institutes.

Students have the capacity to make India a trillion dollar economy: HRD Minister

Our teachers and students have researched and developed things that were not manufactured in India before even during this adverse time. This shows that there is no dearth of quality in our students. This can make us a trillion-dollar economy, said the HRD Minister.

New education policy to focus on new India

Takshshila and Nalanda were our proud. They were the top institutes not only in India but abroad. Now, we will aim to achieve that glory again. The new India and new education policy will focus on that. New ideas, science, and research to be the cores of it. We have incorporated views and suggestions from lakhs of people from all levels of education and economy, the minister said.

Separate accreditation and assessment for online education

Online education should be of high quality and to ensure that NAAC will have to create a new assessment system for online education. We will come out with this soon, said Pokhriyal.
Foreign students to study in India through online courses by top varsities

We will put emphasis on online education through our top 100 institutes and it will ensure that this reaches out to all students. Students from across the world will learn through these courses. UGC is in this direction to ensure that every student in India is reached out through these courses, said Pokhriyal. It is important to push online education as it is the future. We do not know till when this situation will last, he added.

Indian students fought pandemic with research, says HRD

While the rest of the world was sitting at their homes, Indian students were working hard to fight the pandemic. Indian students are doing better research and proving themselves. We are proud of them and their hard work. Right from masks to testing kit for coronavirus, to portable ventilators - students have created it all, said the HRD Minister.

Indian students who used to head abroad will now study in India: HRD Minister

The 7.5 lakh students who were going abroad for studies will search for their future in India. Our education institutes are not inferior. We are competing with top universities in the international ranking index including THE, QS, and others. Rather foreign students will come to India and Indian teachers will be in demand to teach in foreign nations, said the HRD Minister.

Education has moved online, rural areas students reached through TV

As the education system has moved online, we have made efforts to ensure even students in remotest of remote areas. We have made Swayam portal in the world. For students who do not have access to the internet education through television sets. Soon, e-vidya will become one portal HRD minister.

Exams to be held amid social distancing norms

UGC has created a task force to map out a new academic schedule. The calendar not only aims at education but also the safety of students. College exams will begin from July but during the exams, social distancing will be maintained. We will take suggestions from the Ministry of Home Affairs on the same, says Ramesh Pokhriyal Nishank.
Reach-out to COVID-19 task force, if have issues: HRD Minister to students

The final exams will be held for sure. If students have grievances or doubts they can reach out to COVID-19 task force of UGC or of their respective departments as well as colleges, says HRD Minister.

4.70 lakh downloads in three days for NTA app

4,60 lakh students have given tests on the National Testing Abhiyas app within three days of launch while 4.70 lakh have downloaded the same. The App has been created by the National Testing Agency (NTA) for the practice of NEET and JEE mock tests. This was needed as exam test practice centers were closed due to the pandemic.

Final exams for sure

Students in the first semester to be promoted based on previous academic records while second-year students will be promoted based on 50% internal marks and 50% on the previous year or semester record. But final exams to take place. If the condition does not improve by July then the new dates will be released soon.

HRD Minister address colleges HIGHLIGHTS: The minister had earlier congratulated the teachers and administrators to leap up to the online education and addressing over 33 crore students across India. He said that educationists are the foundation of the education system. The minister will also take up live questions and suggestions asked on his Twitter and Facebook handle on the same.
Final Semester Examinations would be conducted for all Universities - HRD Minister confirms in Webinar [Watch]

HRD Minister in his webinar with heads of various HEI's, UGC Chairman and head NAAC, confirmed that final semester exams would be conducted for all. Key highlights of Education minister's webinar.

Human Resource Development, HRD Minister Shri Ramesh Pokhriyal Nishank went live on Facebook to interact with heads of various Higher Education Institutes of the country. In the webinar, attended by over 1000 heads, teachers, chancellors, etc. of various universities, HRD Minister spoke on the vision of PM Narendra Modi and how empowering the education sector was the key to building a $5 Trillion economy. He also answered questions related to universities exams.

Addressing the question of pending university exams, HRD Minister confirmed that the examinations for final semester students would be conducted. Furthermore, for intermediate semesters, in case the situation in the zone is still not under control, the UGC Exam Guidelines have laid out provisions on how to promote the students or mark them.

Watch HRD Minister's address. Key highlights of his address are also listed below.

HRD Minister Live: Key Highlights (As it happened)

@16:22 pm: UGC is working towards improving the standard of education in various universities and institutes. Already, 167 institutes have been identified by the UGC as 'mentors' for 936 institutes. The mentors would help other institutes improve their capabilities and guide them towards achieving the desired outcomes.

@16:15 pm: Prof. Singh, Chairman Universities Grants Commission, thanks the HRD minister and asked all universities to participate in various rankings. UGC is continuously working towards addressing various issues - including the academics and mental health of the students. Teachers are the nation builders and the torchbearers. Quoting Dr. Radhakrishnan, he says that teaching is a mission.

@16:10 pm: Ending the address, HRD Minister Ramesh Pokhriyal shared that all are in mission mode and we would get results. Professor D.P. Singh, Chairman UGC now took over the address and he offers his thanks to Education Minister.

@16:05 pm: HRD Minister thanks the thousands of teachers and professors who have worked tirelessly to help students at this time. He congratulates the universities and higher education institutes for ensuring that learning did not stop. He continues to interact with the various colleges and varsities, to understand what is happening and their successes.
@16:02 pm: India was a 'Vishva Guru' and boasts of the oldest universities - Takshila and Nalanda. The aim is to achieve the same stature and respect. New Education Policy would lay the foundation for the same. India is now looking towards its 'gurus' - the teachers. Teachers touch the lives of 34 crore students and in extension over 100 crore people.

@15:56 pm: New Education Policy would be based on Science and Technology, focussed on India's cultural heritage and would aim at building a new India - Swasth, Swachh, Shashakt and Shrestha Bharat (a healthy, clean, powerful and best India)

@15:50 pm: HRD working towards the vacancies in Higher Education Institutes. About 12000 vacancies in central and about 30000 vacancies in various state universities have already been sent out and would be worked upon.

@15:47 pm: UGC is working on identifying top 100 universities in the country who would be allowed to offer online degree courses. The emphasis is to ensure that the quality of the curriculum is not affected. Also, evaluation for online degree courses would be different from regular courses.

@15:41 pm: A new program on promoting Research in the country would soon be started. PMRF is already addressing the issues. The institutes and teachers and students have all stepped up to accept the challenges presented by COVID19. Our NITs and IITs have worked on various technologies to help the country and is commendable.

@15:35 pm: 470000 have downloaded the app for JEE Main and NEET practice. Students are also downloading Aarogya Setu App. However, the change is here and we have to now discuss online education. We have managed to bring our education to the internet and on broadcast channels (Swayam Prabha). Crores of Students have used Diksha and ePathshala. Swayam is now the largest platform in the world of its kind.

@15:31 pm: HRD Ministry has instigated a task force under UGC and NCERT. The task force is working on the various per the guidelines the universities would begin the examinations in
world is looking at how India's education system has accepted the
challenges and how to manage the massive student population in the country. HRD Minister mentions that he has been receiving various questions from students regarding how to continue the education. He would attempt to answer the questions of the students.

@15:25 pm: The education sector in India is a big family - there are nearly 50,000 colleges and institutes extended to their
affiliates, over 15 lakh schools, and over 1 crore teachers and professors in the country. Also, India's students population is larger than the total population of USA - HRD Minister. He shares how he has been constantly moving around and interacting with various institutes/universities over the past year and believes in their capabilities. Dialogue today is on converting challenges to opportunities!

@15:20 pm: Shri Ramesh Pokhriyal begins his discourse. He welcomes all the heads of institutes who are connected with this medium. There are about 45-50 thousand degree colleges in the country. He is happy to connect with all and interact with them.

@15:15 pm HRD Minister is conducting the Live 'Webinar' with over 40,000 HEI and their heads. Various professors have extended their thanks and welcomed the HRD Minister on to this event.

@15:10 pm: Education Minister's live is now starting on Facebook. Students can connect with HRD Minister as he discussed with various heads of institutes.
Final year college students will sit for exams after July: HRD Minister Ramesh Pokhriyal

Students in the first year will be promoted on the basis of their latest results while for second-year students the pass mark will be decided on internal marks and the previous year or semester record.

Final year students in colleges will have to take their final exams, said Human Resource Development Minister Ramesh Pokhriyal. He also added that the University Grants Commission (UGC) will take the final decision on the matter. The minister was speaking to educators from across the country in a live session organised by the National Assessment and Accreditation Council (NAAC).
Students studying in the first year will be promoted on the basis of their latest academic records while for second-year students the pass mark will be decided on internal marks and the previous year or semester record — both will have equal weightage, said the minister. "But the final exams will take place. If the condition does not improve by July then the new dates will be released soon," he added. "UGC now has a task-force to finalise on how and when the final year exams can be conducted. We are taking recommendations from the Ministry of Health and Ministry of Home Affairs (MHA) in this regard. The students' health is paramount to us. We can opt to promote first-year students based on internal assessment, second-year students can be promoted based on the basis of internal assessment and previous academic record. But, for final year students the exams will take place," said Pokhriyal and added that if students have grievances or doubts they can reach out to COVID-19 task force of UGC or their respective departments in colleges.

"It makes me proud that the education department, the teachers and the parents have continued their work even during this crisis. The teachers have made sure that not one minute is lost even during this lockdown and have ensured that the students are not only educated but also stay motivated and encouraged in these tough times," said the HRD minister. "I have spoken to teachers, students and parents across the country and also had one-on-one interactions with education ministers from the states and it is amazing how we are here today to speak to the teachers of the degree colleges today. Ours is a very big family of educators and an even bigger family of students — the number of students here is more than the entire population of the USA — and this is the future we need to invest in. This is a great responsibility," added Pokhriyal.
A total of 4.60 lakh students have taken tests on the National Testing Abhyas app, which provides free mock tests to the JEE and NEET aspirants, within three days of its launch. The app has been created by the National Testing Agency (NTA). This was needed as exam test practice centres were closed due to the pandemic, said the minister. "As the education system has moved online, we have made efforts to ensure to reach out to even the students in remotest areas. We have made Swayam the biggest online portal in the world. For students who do not have access to the internet are given access to education through television sets. Soon, e-vidya will become one portal for one nation. Online education should be of high quality and to ensure that NAAC will have to create a new assessment system for online education. We will come out with this soon," said Pokhriyal. Students across the country have been protesting against online exams as there is no internet connectivity in remote areas from where a lot of them hail.

Around 7.5 lakh students who were set to go abroad for studies will search for their future in India, said the minister. "Our education institutes are not inferior. We are competing with top universities in the international ranking indices. Rather foreign students will come to India and Indian teachers will be in demand to teach in foreign nations," he added. "While the rest of the world was sitting at their homes, Indian students were working hard to fight the pandemic. Indian students are pursuing high quality research and proving themselves at every corner. We are proud of them and their hard work. Right from masks to testing kit for coronavirus, to portable ventilators — students have made it all possible," said Pokhriyal.
Students have made it all possible, said Pokhriyal. Takshshila and Nalanda were our pride, said Pokhriyal, who is known to be a great advocate of the Indian heritage of education and learning — right from the times of the Vedas. "They were the top institutes not only in India but globally. Now, we will aim to achieve that glory again. The new India and new education policy will focus on that. New ideas, science and research will be the core. We have incorporated views and suggestions from lakhs of people from all levels of education and economy," the minister added. "Institutes should participate in accreditation and assessment systems. They might not get ranking in the first year but maybe the next year. We need to work hard and work in a mission mode. Those who work hard are the happiest. Colleges have the future of the nation in their hands," said Pokhriyal.
NEW DELHI: The Human Resource Development (HRD) Minister Ramesh Pokhriyal ‘Nishank’ has said that the University Grants Commission (UGC) is working on finalising the list of 100 universities which will offer online degree programme as announced by the finance minister, Nirmala Sitharaman recently.

Accreditation Council (NAAC) to work on the modalities to accredit online degree courses to be launched soon.

Union finance minister Nirmala Sitharaman, recently announced that the top 100 universities will be allowed to offer online degree programmes from May 30, 2020 as a part of Government of India's Atmanirbhar Bharat Abhiyan.

Ramesh Pokhriyal ‘Nishank’ urged institutions to get themselves registered on NAAC and get accredited for their improvement and improvement of the education sector.
Academics After COVID-19

Pokhriyal said that the UGC has formed a task force to carry out the academic activity in the post COVID-19 lockdown scenario and in areas where the situation does not improve even after the session commences in July, the students of the first year will be promoted based on their internal assessment. Final-year exams will take place depending on the situation.

Talking about the vacant teaching positions in higher education institutions, HRD minister said that the positions were not being filled because of legal issues and thousands of vacant positions have been filled in past some time. “The process to fill up 12,000 teaching posts have been set in motion in central institutions and state universities have also advertised to fill up 30,000 posts,” said Pokhriyal.

National Education Policy Ready

Talking about the New Education Policy, HRD Minister said that the draft of the policy is ready, which will be India centric.

He also said that the students can reach out to the UGC in case of the challenges being faced by them, even they can reach out to the ministry for their grievances.

The webinar had vice-chancellors, registrars, professors, principals and teachers from across the country participating and was hosted by the National Assessment and Accreditation Council (NAAC). the Joint Entrance Examination (JEE) Main exams will be conducted from July 18 to 23 and the National Eligibility cum Entrance Test-Under Graduate (NEET-UG) exam will be conducted on July 26.

The HRD Ministry also conducted a webinar with teachers on May 14 understanding their challenges and concerns.
Universities must constitute a special cell to address the issues of students related to academic calendar and examinations arising out of special circumstances due to Covid 19 situation, said Union HRD Minister Ramesh Pokhriyal on Thursday. The minister was interacting with heads of more than 45,000 Higher Educational Institutions (HEIs) across the country through a Webinar hosted by National Assessment and Accreditation Council (NAAC), Bengaluru.
The education minister also called upon the HEIs in the country to treat the current situation as an opportunity to overcome limitations in the system. He urged educationists, students and parents to switch-over to the online method and make the most of the situation so that the academic session of the students and the HEIs are not interrupted. He further said that there is an urgent need to improve and enhance the online ecosystem in India and educators should contribute to enhancing the reach so that online education reaches even the rural areas.

The Union minister reflected on various issues and concerns raised by educationists related to academic calendar, online education, examinations, fees, mental health of students, problems of students, fellowships, NEET, entrance examinations etc.
HRD Minister Ramesh Pokhriyal: Encourage India's institutions to take research further to turn COVID crisis into an opportunity

From the IITs to the smallest institutions, almost everyone has innovated in some way to help the fight against COVID. This is why we need to foster research and use it indigenously for development.
COVID-19 is reshaping our world. The World Health Organization has labelled the coronavirus outbreak a pandemic. Governments across the globe have come out with a swath of new measures amid the Coronavirus scare because at the time of writing this article, more than 5 million people have been affected by this virus. Around 200 countries are struggling to fight this. This unprecedented outbreak has filled hospitals and disrupted modern society.

What makes this crisis so tricky is the fact that people have to do nothing. Social distancing is the new norm. Considering the severe human impact of COVID-19, we have to isolate ourselves to defeat the enemy. Somehow, a mechanism is needed so that we can create togetherness without actually being together.

Amidst a rising fear that the Coronavirus infection enters the community transmission stage, the education sector has witnessed a significant disruption globally. Educational institutes across the nation have started several initiatives to confront this challenge. It's encouraging to see that educational institutions across the country are playing a decisive role in the battle against COVID-19. Since the announcement of the first 21-day complete lockdown by our Prime Minister, many Universities have shifted to online instruction so that students do not suffer. Responding to such substantial disruption, more and more educational institutions across the country are joining this online initiative — which could well be one of the world's most massive remote learning experiments.
Most research labs have remained active during this time of crisis. We are trying to develop various technologies indigenously, which come at a higher price when imported. These measures will result in strengthening the economy of India. The concept majorly focuses on the manufacturing growth in the country, which requires adequate technology along with a skilled workforce.

Focussing on collaborative research, institutions and universities are contributing to the public good. As one of the largest education systems in the world with more than 340 million students and 10 million teachers, we have a huge responsibility to ensure the smooth and safe running of our institutions. The best part is that the entire education sector in the country is working closely together on COVID-19 response efforts. As a part of a joint project, the Chemistry Department, along with and the Bioscience and Bioengineering departments at IIT Guwahati, are developing prototypes of waterproof protective gear that comes with an antiviral coating. Besides, experts have created a 3D-printed prototype of a full-face shield, including headgear, with a possibility of scaled-up manufacturing.
To meet the enormous demand for sanitisers in the country, IIT Kharagpur has developed two different alcohol-based hand sanitisers based on WHO guidelines. Numerous other universities and institutions are preparing sanitisers to meet the huge demand. While researchers at the Indian Institute of Technology, Kanpur, have come up with a new ventilator design. This has the potential for large-scale manufacturing at multiple sites. Scientists at the Indian Institute of Technology, Delhi, have developed a method to detect COVID-19, which can significantly reduce the cost of the test making it affordable for a larger section of people. Situated near Chandigarh, IIT Ropar has developed a design of a Negative Pressure Room (NPR) to prevent the transmission of COVID-19 through the air at isolation wards and testing labs. This technology will help protect our most vulnerable medical staff from infection. As a part of a collaborative initiative, students from prestigious educational institutions — IITs, NITs, and IIMs — have come together and launched an initiative called Sahyog to help stranded workers, migrants and the homeless amid the strict measures to restrict movement. As a part of another collaborative project, AIIMS Patna and IIT Patna are identifying potential drug targets in the structural proteins of SARS-Cov-2.

Our educational and research institutions do realise the fact that the COVID-19 crisis has resulted in an unprecedented lockdown, and the country badly needs an abundant supply of essential commodities. We need COVID-19 testing kits, masks, alcohol-based sanitisers, personal protective equipment (PPEs), dress materials, and food. The institutions are already working on finding solutions.
materials not only for the patients but also for frontline health workers. The challenge is to produce these as quickly as possible and in bulk. This situation prompted the Government of India to vigorously activate the Make in India Programme and involved various Research and Development institutions of the country. Indian Institute of Science in Bangalore is working on several projects ranging from 3D printed valves for split use of ventilators to a recombinant subunit vaccine for SARS-CoV-2.

Researchers at the institute are also working on developing a UV-based disinfectant device along with mobile diagnostic testing laboratory. IIT Palakkad is attempting to make indigenously designed masks and filters. The filters contain layers of non-woven PP (polypropylene) materials and textile material coated with known antiviral nanomaterial. To prevent community spread, surveillance of Coronavirus suspects is essential. It's heartening to note that IIT Roorkee has developed a mobile tracking application endowed with state-of-the-art features to locate corona suspects. IIT Roorkee and AIIMS Rishikesh have teamed up to form a low-cost portable ventilator called Prana-Vayu that can be useful for COVID-19 patients. NIT Calicut has developed a low-cost, non-invasive emergency ventilator with an exhale disinfector. The Madras Medical College in Chennai along with a deemed university, is working on 100 3D printed splits to be used in ventilators for COVID-19 patients.
I am sure that these initiatives launched by our educational institutions will draw more investments and power the Indian growth story. This research will not only further the manufacturing capabilities of our country but help in creating fertile ground for businesses to thrive in India. I sincerely believe higher education is a catalyst for economic growth, as it ensures the strategically competitive technological advances in addition to skilled human resources. High-level skills and technological advances provide production improvement, thus leading to a flourishing economy. As much as we brace to face the worst, we must encourage research initiatives of our institutions, which gives us the capability of turning this crisis into an opportunity. It is highly encouraging that almost every week a new solution is being put out by our research institutions in this fight against COVID. The best part is that our start-ups, our students, researchers and faculty are at the forefront with their strategically competitive skills.

Ramesh Pokhriyal 'Nishank' is the Union Minister for Human Resource Development, Government of India
NAAC organises online interaction programme at GNDU

Amritsar, May 28, (UNI) Vice Chancellor, Prof. Jaspreet Singh Sandhu and officials of Guru Nanak Dev University here on Thursday attended the online interaction programme with Mr Ramesh Pokhriyal Nishank, Minister of Human Resource Development in the Multimedia Room of Senate Hall Building of Guru Nanak Dev University.

Mr Ramesh Pokhriyal Nishank addressed the higher education institutions on the theme "Turning Challenges into Opportunities to Combat the Threat of COVID-19". As many as 45,000 representatives from various education institutions from all over India attended this programme and also participated in live interaction. This programme was organized online by National Assessment and Accreditation Council (NAAC), Bangalore.

In light of the above, expressing his views, Prof. Sandhu said that Guru Nanak Dev University is committed for the upliftment of the status of higher education in the University. He said that during lockdown period, the University has been constructively engaged with various online activities for the student, faculty, employees and for the humanity at large. He hoped that this interaction would be useful for motivating faculty and students of higher education institutions and encouraged them to prepare for facing the challenges in future.

Mr Pokhriyal, in his address, said that education is the backbone of India. The world is looking at how India's education system has accepted the current challenge and managed the massive student population in the country during this period.

He said that UGC is working on identifying top 100 universities in the country who would be allowed to offer online degree courses. The emphasis is to ensure that the quality of the curriculum is not affected. Also, evaluation for online degree courses would be different from regular courses.

A new program on promoting Research in the country would soon be started. The institutions, teachers and students have all pulled up to accept the challenges presented by COVID-19. Our NITs and IITs have worked on various technologies to help the country in a commendable manner.

He thanked the teachers and professors who have worked hard to help students during this situation. He congratulated the universities and higher education institutions for ensuring that learning did not stop even during this pandemic.

167 ‘mentor institutes’ will help improve 936 other institutes: UGC Chairperson

UGC Chairperson DP Singh announced today that 167 higher education institutes will act as mentor institutes to 936 other colleges and institutes to improve their education outcomes.

UGC Chairperson DP Singh today interacted LIVE on Twitter with 45,000 higher education institutions as HRD Minister Ramesh Nishank Pokhriyal handed over
the audience after his webinar on Thursday afternoon.

Amongst other things, one of the primary announcements he made was the selection of 167 ‘mentor institutions’ which would be guiding 986 mentee institution to improve their education outcomes and NAAC rankings.

He explained that as per this scheme launched by the HRD Ministry, the topmost institutes with the best NAAC ratings would guide and handhold mentee institutions so that the best learning outcomes could be received.

UGC Chairman asks all universities to participate in various rankings

UGC Chairman DP Singh encourages all higher education institutes to participate in various assessment and ranking processes as they could help colleges and universities understand what factors they need to improve on.

These rankings such as NAAC rankings would help in improving the all over education standard of higher education in India.

'Teachers are the nation builders'

In his brief address, the UGC chairman pointed out the importance if the role of teachers, especially during the lockdown when they are carrying out online classes in schools and colleges.

"Teachers should have love for teaching and love for learned," said the UGC chairman, highlighting that this is when the student-teacher relationship blooms the best.

He said that because of such tough times, we now need to help students grow up in such a way that they are empathetic and think about the betterment of everyone.

'Teachers are the nation-builders, teachers are the torchbearers. Teaching is not a profession, it is a mission," DP Singh said quoting Sarvepalli Radhakrishnan.

He also commented on how UGC is working on helping students both in academics and in other issues such as how to tackle mental health problems during the Covid-19 lockdown.
India has a new scoring system for the COVID batch's lost semester—where old grades matter

The Ministry of Human Resource and Development (MHRD) today said that the National Assessment and Accreditation Council (NAAC) will roll out a new quality assessment system and accreditation for online education in India. This is aimed at promoting high quality education in the country.

The development was announced by the Union Cabinet Minister Ramesh Pokhriyal while addressing the higher education institutions. As many as 33 crore students are enrolled in over 45,000 colleges in India.

The students in the final year of college will have to sit for exams — in July or later, if the condition worsens, the Union Minister said.
On the other hand, those in the first semester will be promoted based on their internal assessment scores. Students in other semesters will be promoted based on their academic record in the previous year and internal assessment of the current semester.

This comes after the University Grants Commission (UGC) rolled out new guidelines for university students that said that these students will be giving the final examination in July and the next academic session will begin in August, 2020.

“The academic session 2020-21 may commence from August 1 for old students and September 1 for fresh students,” the official announcement said.

The UGC guidelines also mandated that the final year students will have to sit for exams — online or offline. “Universities may conduct terminal, intermediate semester examinations in offline or online mode, as per their ordinances and regulations, scheme of examinations, observing the guidelines of ‘social distancing’ and keeping in view the support system available with them and ensuring fair opportunity to all students,” UGC added.

According to the guidelines, the exams shall be conducted for a duration of two hours now instead of three hours. In addition, the universities will have to follow a six-day week pattern “to compensate the loss for the remaining 2019-20 session”.

In March, the Ministry of Human Resource and Development (MHRD) directed all the educational institutions — including the universities, entrance exam centres to shut down in wake of the coronavirus pandemic.

Since then, colleges have been trying to move the academic sessions online. Many institutes — including IIM Calcutta — have already started the next academic session online via video conferencing.
Education Minister Live Updates: मंत्री ने 42 हजार भर्तियों की दी जानकारी, केंद्र और राज्य ने जारी किए विज्ञापन

एनआई कैमरा, अमर उजाला  Updated Thu, 28 May 2020 04:29 PM IST

केंद्रीय मानव संसाधन विकास मंत्री (एचएचडी) संगीत पवारीयाल निरीक्षक ने फेसबुक लाइव के माध्यम से उच्च शिक्षा संस्थाओं को बताया कि 42 हजार भर्तियों की जानकारी दी गई है। तथा उनका अभिभावक आयोग ने मानव संसाधन विकास मंत्री (एचएचडी) संगीत पवारीयाल के आयोजन का नैतिक कार्यक्रम NAAC द्वारा विज्ञापन किया है।

लाइव में क्या कहा मंत्री ने?

मंत्री ने बताया कि यूजर्स के माध्यम से तय किया जाएगा कि भारत के किन 100 विश्वविद्यालयों में ऑनलाइन शिक्षा को बढ़ाया जायेगा।

उन्होंने कहा कि दुनिया का सबसे बड़ा ऑनलाइन लर्निंग प्लेटफॉर्म 'स्क्रेप्स' बन गया है। लेकिन कुछ ऐसे कार्य भी है जिनके लिए ऑनलाइन शिक्षा की जरूरत है, उन्होंने कहा कि यह रूपक है। अभिभावक आयोग ने भी निर्देशित किया कि दौरे पर यह वीडियो 24 घंटे जल्द-जल्द विषयों की पढ़ाई कराने का निर्देश दिया है।
वस्त्र जीवनी के अन्तर्गत शैक्षणिक कार्यक्रम का प्रसारण रेडियो पर भी किया जा रहा है।

भर्तियों के विभाग में जानवारी दे देंगे तो वे कहा कि केंद्र और राज्यों में रिक्ट पदों को भरने की कोशिश की जा रही है। इसके लिए केंद्र से 12 हजार और राज्यों से 30 हजार विज्ञापनों के माध्यम से भर्ती प्रकाशित किया गया है।

7.5 लाख छात्रों पर पढ़ाई के लिए विदेश जा रहे हैं, वे भारत में ही रहकर अपना भविष्य बनाएंगे। इसके अलावा एचआईटी मंडल ने कहा कि विदेशी छात्रों को भारत आकर पढ़ाई करने और भारतीय शिक्षा के विदेशी देशों में छात्रों के लिए मांग करते हैं।

भारतीय छात्रों के लिए बेहतर शीघ्रता का खुलासा करने वाले हैं। हमें उन पर और उनकी मेहनत पर गर्व है। मास्क से लेकर कोरोनावायरस के परीक्षण किट, थेट्सेल थ्रेड्सेल से छात्रों ने नये भविष्य का आशीर्वाद मिला।

शेड्यूल पैटर्न के लिए उपलब्ध देखते हैं तो खुशी मानते हैं। वहीं परिस्थिति सामान्य सफलता से देखते हैं तो बाजे में लाइव का माह में परीक्षाएं आयेंगी। मंडल ने छात्रों की सुरक्षा को प्राथमिकता की है जीवन रहने के लिए किया जा रहा है। छात्रों का प्रमोशन अंतरराष्ट्रीय

स्वतंत्रता के आधार पर होगा। अंतिम ईयर की परीक्षा आयोजित की जाएगी लेकिन कहा, वे फैसला परिवर्तित कर अध्यादेश राज्य ने।

जल्द ही देश में रिसाव को बढ़ावा देने के लिए एक नया कार्यक्रम शुरू किया जाएगा। पीएमआरएफ पहले तो ही इन मुद्दों पर काम कर रहा है। इमारे एनआईटी और डॉ. शामशाही ने देश की मदद करने के लिए विभिन्न तकनीकों पर काम किया है और वह सस्त्रिय है।

मानव सशक्तता संसाधन विकास मंडल ने उन हजारों विद्यार्थियों और संस्थानों को धन्यवाद दिया, जिन्होंने इस समय छात्रों की मदद करने के लिए अथवा परिश्रम किया है।

छात्र भर के संस्थानों को व्यक्तित्व बनाने के लिए अनुसन्धान किया है। कोरोनावायरस के खिलाफ लड़ने के लिए तात्कालिक आयोजन किया जा रहा है। मंगलवार के अवकाश के अनुसार, अब तक 600 से अधिक संस्थानों को व्यक्तित्व बनाने में योगदान दिया गया है।

लाइव में मंडल ने नई शिक्षा नीति की भी जानकारी दी। जो शिक्षा नीति विश्व और तकनीक पर आधारित होती थी। या नीति देश के सांस्कृतिक विरासत पर आधारित होगी। इससे हमेशा भारत के निर्माण का बढ़ सकता है।
HRD Minister asks universities to form special cells to address academic issues of students due to COVID-19

Union Human Resource Development Minister Ramesh Pokhriyal 'Nishank' on Thursday interacted with heads of more than 45,000 Higher Educational Institutions (HEI) across the country through a webinar hosted by National Assessment and Accreditation Council (NAAC), Bengaluru.

Union Human Resource Development Minister Ramesh Pokhriyal 'Nishank' on Thursday interacted with heads of more than 45,000 Higher Educational Institutions (HEI) across the country through a webinar hosted by National Assessment and Accreditation Council (NAAC), Bengaluru. An official release said he asked all universities to constitute special cells which will be empowered to address the issues of students related to academic calendar and examinations arising out of special circumstances due to COVID-19. He said that a task force has been created in UGC and NCERT to resolve the different issues of students.
While lauding the initiatives taken by NAAC at this time of the pandemic, the minister called upon the HEIs to treat the current situation as an opportunity to overcome limitations in the system. He asked educationists, students and parents to switch to the online method and make most of the situation so that the academic session of students and HEIs is not interrupted.

"There is an urgent need to improve and enhance the online ecosystem in India and educators should contribute to enhancing the reach so that online education reaches even the rural areas," he said. In the hour-long interaction and address, the Union Minister reflected on various issues and concerns raised by educationists related to issues such as academic calendar, online education, examinations, fees, the mental health of students, problems of students, fellowships and NEET, entrance examination.

He spoke about the initiatives taken by the government about Swayam Prabha, Deeksharambh and Paramarsh. He also urged all HEIs to take part in the NAAC accreditation process. (ANI)

HRD Minister interacts with Heads of more than 45,000 higher educational institutions

Friday, 29 May 2020 | PNS | New Delhi

HRD Minister Ramesh Pokhriyal Nishank on Thursday interacted with Heads of more than 45,000 Higher Educational Institutions across the country through Webinar hosted by National Assessment and Accreditation Council (NAAC), Bengaluru.

While lauding the initiatives taken by NAAC at this time of the pandemic, Pokhriyal called upon the HEIs in the country to treat the current situation as an opportunity to overcome limitations in the system.

He called upon the educationists, students, parents to switch-over to the online method and make the most of the situation so that the academic session of the students and the HEIs are not interrupted. He said there is an urgent need to improve and enhance the Online ecosystem in India & educators should contribute to enhance the reach so that online education reaches even the rural areas.

The Minister addressed and Interacted with a galaxy of Academicians comprising participation from Vice Chancellors/Registrars/Professors/IQAC heads/Principals/ Faculty from across the Nation.

In the hour long interaction and address, the Union Minister reflected on various issues and concerns raised by educationists related to Academic Calendar, Online Education, examinations, Fees, Mental health of students, problems of students, fellowships, NEET, entrance examinations etc. He dwelt upon at length on the initiatives taken by the Government with regard to Swayam Prabha, Deeksharambh, Paramarsh and a host of other special initiatives taken during the pandemic period.

He also urged all Higher Educational Institutions to take part in NAAC accreditation process. He reiterated that the Prime Minister of India Shri Narendra Modi is very concerned about the well being of Higher Educational Institutions and assured of all help in furthering the academic activities of student fraternity.

The Union Minister asked all Universities to constitute a special cell which will be empowered to address the issues of students related to academic calendar and examinations arising out of special circumstances due to Covid 19.

He said that a task force has been created in UGC and NCERT to resolve the different issues of students. Nishank assured that Ministry is committed to provide all assistance to students in the time of crisis.

During the interaction the Union Minister highlighted the process of how the new session will be commenced, at the same time he specified that the priority will be given to the safety of the students.

He called educational fraternity as Corona Warriors because in this extraordinary situation they are working round the clock to provide quality education to students.

The event was also graced by Chairman, UGC, Prof D P Singh, Prof Virander S Chauhan, Chairman, EC, NAAC. Prof S C Sharma, Director, NAAC spoke & coordinated the event.
HRD Minister Confirms that Final Semester Exams 2020 to be held in all Universities at NAAC Live Webinar

Published on: May 28, 2020 20:18 IST

Final Semester Exams 2020 Compulsory: Union HRD Minister Ramesh Pokhriyal Nishank today confirmed that Final Semester Exams 2020 will be held compulsorily by all the universities across the country. He also added that students of intermediate semesters can be promoted by universities based on internal assessment, if situation in the zone doesn't permit so. This information was shared by the HRD Minister in a live webinar organized by NAAC which was attended by heads of various Higher Education Institutes of the country. The NAAC Webinar was attended by over 1000+ heads, teachers, chancellors, etc. of various universities.
Education Backbone of Economy

Starting the Seminar, HRD Minister said that Education is the backbone of Economy and is an essential component to keep the wheel of economic cycle going. He also said that education is a very integral and important part of PM Modi's dream of making India a USD 5 Trillion Economy. He also added that in the wake of COVID-19 crisis, globally, many countries are looking at India and the initiative the government has launched to facilitate education in such challenging times.

Clarity about Pending University Exams

In the live webinar, Union HRD Minister confirmed that the final semester exams are to be held for all the students who are currently in their terminal semester or year. He also clarified that the exams for intermediate semester students can be held after a thorough feasibility study done by the institute or university based on the Coronavirus situation in their respective zone. In case the situation doesn't allow, higher education institutions can choose to promote students to the next academic grade based on internal promotion policy.

UGC and NCERT working on Safety Guidelines

On the topic of resumption of academic activities in schools and colleges, HRD Minister thanked the educators who had joined the live seminar for taking up the challenge to provide students education through online learning platforms. He also informed them that UGC and NCERT have been assigned the task to chalk out the detailed plan and guidelines that need to be followed for in-person or classroom based academic activities. He said that these guidelines will prioritize the safety of students and teachers over any other challenge and design an academic system that keeps students safe and healthy while also ensuring zero academic loss to the students.
Govt asks all colleges, universities to go for universal accreditation

1 min read. Updated: 29 May 2020, 12:37 AM IST
Prashant K. Nanda

Currently, less than 50% of the India’s 50,000 plus institutions are accredited by the National Assessment and Accreditation Council (NAAC)

The union government Thursday said...
During a webinar with colleges and universities, human resource development minister Ramesh Pokhriyal said top universities and institutes of national importance have been asked to mentor other colleges and universities and help them improve quality and get accreditation. Pokhriyal said the higher educational institutions in the country need to convert the current crisis into an opportunity and improve quality via accreditation and benchmarking.

Some 167 top institutions have already signed up with the government to mentor 936 higher educational institutions, university grants commission chairman D.P. Singh said, adding that peer mentoring will help the higher education sector.

The minister said there is an urgent need to improve and enhance the online ecosystem in India to improve access of education to all. He asked all universities to “constitute a special cell which will be empowered to address the issues of students related to academic calendar and examinations arising out of special circumstances due to Covid-19. He said taskforce has been created in UGC and national Council of Educational Research and Training (NCERT) to resolve the issues of students.

College Final Year Exams Will Be Conducted For Sure: HRD Minister

ANTHONY ROZARIO

PUBLISHED: 28 MAY 2020, 05:48 PM IST

Amid growing calls for cancellation of final-year college exams across the country, Union Human Resource Development Minister Dr Ramesh Pokhriyal on Thursday, 28 May, reiterated that exams for final-year college and university students will definitely be conducted, while exploring different options.

The minister made these comments during a webinar organised by National Assessment and Accreditation Council (NAAC).

Pokhriyal also said that he is hopeful about conducting university and college exams by July. For this purpose, he said that a report by the UGC on reopening of universities and conduct of exams has been submitted and that arrangements will be made in coordination with the Union Home Ministry and the Ministry of Health and Family Welfare.

However, if the situation doesn’t normalise in any given region, first and second-year exams in colleges and universities in that specific region can be conducted by combining internal assessment with scores of the previous semesters.

This idea was first suggested by the University Grants Commission, in its advisory to universities in April.
“In regions where the situation doesn’t normalise by then, we have decided that students of the first semester and first year will be evaluated on basis of internal assessment. Students of second year will be evaluated on the basis of internal assessment and scores of previous semesters.”

Dr Ramesh Pokhriyal, HRD Minister

The minister’s comments come amid growing demands for conducting final-year exams through internal assessment. In the University of Delhi itself, student and teacher bodies have said that final year students should be evaluated on the basis of internal assessment, along with scores of previous semesters.
कॉलेजों में कब और कैसे होगी परीक्षाएं, केंद्रीय मानव संसाधन विकास मंत्री ने वेबिनार के जरिए दी जानकारी

कैरियर मानव संसाधन विकास मंत्री डॉ. रेमेश पोक्हरियाल निशिकं (Union HR Minister Dr Ramesh Pokhriyal Nishank) ने आज वेबिनार के जरिए देखा शिक्षा जनता को संबोधित किया। वह (NAAC) द्वारा इस वेबिनार का आयोजन का अंतिम 25 वर्ष पर देश के करीब 45 हजार डिग्री कॉलेजों के लिए किया गया था। केंद्रीय मानव संसाधन विकास मंत्री ने केंद्रीय लाइव कार्यान्वयन के मध्यम से हस्ताक्षर दिया कराया। वह देखा कि इसके साथ भी मौजूद विद्यार्थी, छात्रों और विद्यार्थियों के साथ आपको यह बुझाना अथवा साहित्य पर बहुत सा काम बनाए गए हैं। लाइव के मध्यम से भी मौजूद ने विद्यार्थी की सहायता के लिए काम करने के लिए लिए गए काम।

इस वेबिनार में केंद्रीय मंत्री ने कहा, नीति ने तेरह नीति एन्जॉय का नीति और आदर्शों का लिए काम किया। उन्होंने ये भी बताया कि कोरोना के कारण लगातार हालात के बारे में कोरोना की परीक्षा को लेकर खुशी की बात नहीं का। उन्होंने कहा कि कोरोना-19 के बाद हुई दुनिया के वर्तमान स्थिति से तय कर दिया कि क्या करना चाहिए। उन्होंने हालात के बारे में कहा कि इसके लिए राज्यों के क्रेडिट का उपयोग करने के लिए काम किया गया।

लाइव में उन्होंने ये भी कहा कि इस लाइव के माध्यम से नीति की परीक्षा की भी पायी गई। लाइव में उन्होंने ये भी कहा कि केंद्रीय मंत्री ने इस कार्यान्वयन का आयोजन किया कराया।

वर्तमान दिन के लोग भी लाइव के माध्यम से लिये गए काम को अपने के लिए किया जा रहा है। उन्होंने ये भी कहा कि इस दिन का वर्तमान स्थिति से तय किया कि क्या करना चाहिए। उन्होंने हालात के बारे में कहा कि इसके लिए राज्यों के क्रेडिट का उपयोग करने के लिए काम किया गया।

लाइव में उन्होंने ये भी कहा कि इस लाइव के माध्यम से नीति की परीक्षा की भी पायी गई। लाइव में उन्होंने ये भी कहा कि केंद्रीय मंत्री ने इस कार्यान्वयन का आयोजन किया कराया।

कॉलेज परीक्षाओं को लेकर UGC की योजना बताई केंद्रीय मंत्री ने

Monday, June 1, 2020

बिलया में बीजेपी विधायक ने सांसद के खिलाफ खोला मोर्चा
और शोध कार्यः तक पर चर्चा की। उन्होंने भी बताया कि कॉलेजों के कारण बिगड़े हालात में कॉलेजों की परीक्षाओं को लेकर UGC की क्या योजना है।

डॉ. मेघा पोखरियाल निश्चय ने कहा कि कोविड-19 से जहां पूरी दुनिया धर्म रही है, वहीं भारत जैसा विकासशील देश शिक्षा के क्षेत्र में बेहतर काम कर रहा है। ये हमारे शिक्षा के योग्य यादी शिक्षकों के कारण ही संभव है।

उपन्यास शिक्षा
हमने दुनिया की अवसर के रूप में लिया है। क्योंकि ने नहीं सोचा था कि ऐसी परिस्थिति आएगी जब बच्ची पर रहेगा और फिर उसकी पढ़ाई शिक्षा का मामला होगा। इस में हमने उपन्यास शिक्षा पर पूरा जोर दिया और इसे कई युग बेहतर कर आगे बढ़ाया है।

मनोद्परण
बच्चे का मनोबल बनाए रखने के लिए हम मनोद्परण लेकर आ गए हैं। जल्द ही इसका उपभोग किया जा गया। हर दुनिया में हमें अपने लिए भी एक हेलपलाइन बनेगी।

कॉलेजों में रिक्त पद
केंद्र और राज्यों में कई पद रिक्त रहा। उसे भ्रमण की कोशिश में हम लगे हैं। हजारों भ्रमण हुईं। 12 हजार से भी ज्यादा केंद्र में और राज्यों से 30 हजार के करीब रिक्त पदों पर भर्ती के लिए विज्ञापन जारी है। जल्द ही भरी प्रक्रिया पूरी की जाएगी।

कॉलेजों में परीक्षाएं
एनसीआईआर तक ही UGC में भी टास्क फोर्स का गठन किया गया है जो आगे के लिए रोडमैप तैयार करेगा। जुलाई में परीक्षाएं आयोजित की जाएगी आप हालात सामान्य है। किसी तरह होंगी, इस पर टास्क फोर्स अध्ययन कर रिपोर्ट दे रही हैं।

हालात सुषुक्त है। जिन क्षेत्रों में उस समय तक भी सामान्य स्थिति नहीं होती, वहां आत्मिक मूल्यांकन के आधार पर ही छात्रों की प्रातिभगत होगी। फाइनल परीक्षा होगी। कब होगी, इसका निर्णय हालात के अनुसार लिया जाएगा।

टीट और जेईए मेन
टीट और जेईए में व एडवांस की तिथियां घोषित हो चुकी हैं। तैयारी के लिए छात्र बाहर नहीं जा रहे। ऐसे में तैयारी में मदद के लिए एनटीए ने नेशनल टेस्ट अभ्यास ऐप लॉन्च किया है। जिसे वे स्ट्रोर से डाउनलोड किया जा सकता है। चार दिन में ही 4.60 लाख स्टूडेंट्स इस ऐप को डाउनलोड कर चुके हैं और मॉक टेस्ट भी दे चुके हैं।

अन्य बातेः
स्टडी इन इंडिया के तहत 40 हजार से ज्यादा नामांकन हो चुके हैं। हम इस दिशा में काम कर रहे हैं कि दूसरे देशों से बच्चे हमारे यहां प्रवेश करेंगे और हम इस स्टूडेंट्स बाहर पढ़ाने के लिए जाएंगे।

Union Human Resource Development (HRD) Minister Ramesh Pokhriyal Nishank on Thursday asked all universities to constitute special cells to address the academic issues.

He said that every issue related to students’ academic calendar and examinations that have arisen due to the coronavirus pandemic must be addressed properly.
Universities must form special cells to address academic issues: HRD minister

While interacting with over 45000 heads in a national webinar hosted by National Assessment and Accreditation Council (NAAC), the HRD minister revealed that a task force has been created in UGC and NCERT to resolve the different issues of students.

During the national webinar ‘COVID-19: Turning Crisis Into Opportunity’, Pokhriyal also urged all higher educational institutions to take part in the NAAC accreditation process.

Appreciating the educational fraternity as Corona Warriors, Pokhriyal asked the educationists, students, parents, to switch-over to the online method and make the most of the situation so that the academic session of the students and the higher educational institutions are not interrupted.

He said there is an urgent need to improve and enhance the online ecosystem in India and educators should contribute to enhancing the reach so that online education reaches even the rural areas.

“"In the hour-long interaction and address, the Union Minister reflected on various issues and concerns raised by educationists related to Academic Calendar, Online Education, examinations, Fees, Mental health of students, problems of students, fellowships, NEET, entrance examinations etc,” a release by the HRD ministry said.

“He dwelt upon at length on the initiatives taken by the Government with regard to Swayam Prabha, Deeksharambh, Paramarsh and a host of other special initiatives taken during the pandemic period,” it added.
