Manual of Health Sciences for Colleges

Standard Operating Procedure for Data Verification and Validation (SOP for Health Sciences Colleges)

Health Sciences Manual for Colleges with Qualitative Metrics and Quantitative Metrics (applicable for all cycles and for Re-Assessment) (Applicable for the first as well as subsequent Cycles) with data templates and Glossary.

UNIFIED Manual for Health Sciences Colleges

The SOP for DVV process has 2 sections namely – Part – A for 900 weightage which is generic in nature and Part –B for 100 weightage is discipline specific in nature. Sec-A is applicable to all types of Health Sciences Colleges where as Part

Standard Operating Procedure for Data Verification and Validation Process (Health science College only) 28/06/2019

-B is discipline specific (Medical, Dental, Pharmacy, Nursing, Ayurveda, Yoga / Naturopathy, Unani, Siddha, Homeopathy, Physiotherapy and Allied Health Sciences). This Manual is applicable for all cycles and Re-Assessment also. This is applicable to affiliated / Constituent Colleges only. While preparing SSRs, Health Sciences Colleges have to refer both manual and SOP for DVV.

1. Meaning and need of SOP in the NAAC context:

NAAC as a quality organisation must first create a culture where quality objectives are transparent and well understood. Undoubtedly these goals can be achieved by following certain sets of procedures called as "**Standard Operating Procedures**" (**SOP**). A Standard Operating Procedure (**SOP**) is a set of written instructions that document a routine or repetitive activity which is followed by employees in an organization. The development and use of **SOPs** are an integral part of a successful quality system. Procedures are essential for effectiveness and efficiency in work and they are regulatory requirement in the NAAC processes. It provides information to perform a job properly, and consistently in order to achieve pre-determined specification and quality end-result.

SOPs detail the regularly recurring work processes that are to be conducted or followed within an organization. They document the way activities are to be performed to facilitate consistent conformance to quality system requirements and to support data quality. . Sops are intended to be specific to the organization or facility whose activities are described and assist that organization to maintain their quality control and quality assurance processes and ensure compliance with governmental regulations. **SOP** contains step by step instructions that employee must refer in daily work to complete various tasks more reliably and consistently. **SOP** makes clear about followings -

- What is the objective of SOP (Purpose) ?
- What are its applicability and use of SOP (Scope)?
- Who will perform tasks (Responsibility) ?
- Who will ensure implementation of procedure (Accountability) ?
- How tasks will be performed (Procedure) ?

Procedures are not an end in themselves but support process/ people .They do not guarantee good performance or results. More important are well-designed systems and processes, qualified employees, and a motivating work culture that guarantee good performance.

SOP is a dynamic process and hence it is decided not to print the material. We will provide only soft copy. It is because NAAC rules /norms /standards keep on changing from time to time. Accordingly changes will be incorporated in SOP periodically.

Further this SOP material is prepared based on existing practices/rules/norms/standards and is for internal use in NAAC . Any changes may be incorporated later on.

Standard Operating Procedure for Data Verification and Validation Process (Health science College only) 28/06/2019

Many activities use **checklists** to ensure that steps are followed in order. Checklists are also used to document completed actions. Any checklists or forms included as part of an activity should be referenced at the points in the procedure where they are to be used and then attached to the SOP. In some cases, detailed checklists are prepared specifically for a given activity. In those cases, the SOP should describe, at least generally, how the checklist is to be prepared, or on what it is to be based. Copies of specific checklists should be then maintained in the file with the activity results and/or with the SOP. Remember that the checklist is not the SOP, but a part of the SOP.

It shall be noted that the Best written SOPs will fail if they are not followed.

Note:

Date: 16/01/2019

Modification of Time Line for Submission of Self Study Report (SSR) Time line for online submission of Self Study Report for Higher Education Institutions (HEIs) shall be 45 days from the date of acceptance of Institutional Information for Quality Assessment (IIQA). This is applicable to all the Higher Education Institutions (HEIs) whose Institutional Information for Quality Assessment (IIQA) is accepted.

General Guidelines:

- The NAAC Portal supports only 2MB data for each metric. To extent possible kindly upload the data in NAAC website only. If the attachments exceeds 2MB, please host the supporting documents in the HEI’s website and provide the link of the same in the template and/or in the HEI-DVV clarification Space
- While proving the links of the HEI’s website where the supporting documents are hosted, please provide the link in the HEI clarification box. While providing the links in running text, please press “enter” and then pate the link and again press “enter”. This will enable hyperlink.
- Please provide the supporting documents during the SSR submission to facilitate speedy DVV clarification process.
- It is mandatory to fill the templates in format provided by NAAC and attach the same in SSR. The HEI is not supposed to alter the format in which data is sought in template.
- It is mandatory to respond to all the DVV clarification raised in extended profile and metrics with in stipulated time. If the data is large, ensure to fill the data template. During DVV clarification, the DVV will seek for sample selective documents for validation. It is mandatory to provide documents of all the samples sought by DVV, failing which pro rata data will be implemented.

Standard Operating Procedure for Data Verification and Validation Process (Health science College only) 28/06/2019

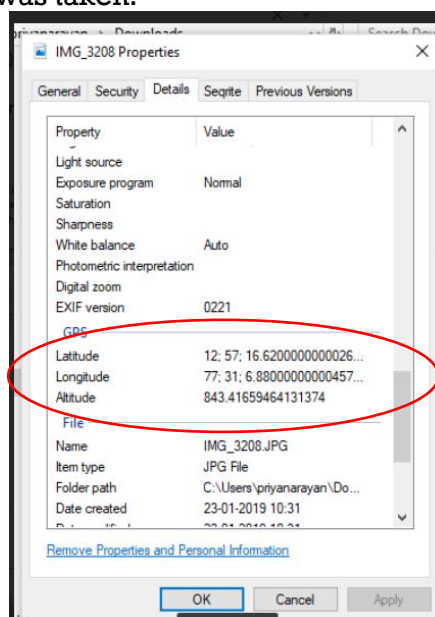

- Data should not be hosted in Google drive and in any third party websites. The data should be either in the NAACs portal or in the HEI website
- The data that are hosted in the HEI's website should not be changed after the submission of link to the NAAC. Such incidences will be viewed seriously as misappropriation of data and may lead to actions against the HEI.
- The instruction while providing links should ensure that the links work properly and are operational. The institution also should give the links as appropriate to the metric and not general links whose landing page is the HEI's home page. In case the links does not work during DVV clarification, it would deem fit to the decision of DVV.
- Content of the Supporting document s in regional languages should be translated in English and should be duly signed by the head o the institution. The translated copy should be uploaded along with the regional language document.
- Geotagging: Kindly follow the steps to obtain a Geo-tagged photo

(1) In setting of your digital camera, set the location on

(2) If you are taking photos in a smart phone, then set the location on

(3) Take pictures after setting the location on.

(4) Download the pictures in a computer system and examine the properties. In properties, click on the details tab, scroll down to see GPS: you will see something like the picture provided below, the value entries in Latitude and longitude will determine the location in which the photo was taken.

General Guidelines:

- The NAAC Portal supports only 5MB data for each metric. If the HEI's data exceeds 5MB, please host the supporting documents in the HEI's website and provide the link of the same in the template and/or in the HEI-DVV clarification Space
- Please provide the supporting documents during the SSR submission to facilitate speedy DVV clarification process.
- It is mandatory to respond to all the DVV clarification raised in extended profile and metrics with in stipulated time. If the data is large, ensure to fill the data template. During DVV clarification, the DVV will seek for sample selective documents for validation
- Data should not be hosted in google drive and third party websites. The data should be either in the NAACs portal or in the HEI website
- The data that are hosted in the HEI's website should not be changed after the submission of link to the NAAC. Such incidences will be viewed seriously as misappropriation of data and may lead to actions against the HEI.
- The instruction while providing links should ensure that the links work properly and are operational. The institution also should give the links as appropriate to the metric and not general links whose landing page is the HEI's home page.
- Content of the Supporting documents in regional languages should be translated in English and should be duly signed by the head of the institution. The translated copy should be uploaded along with the regional language document.
- Geotagging: Kindly follow the steps to obtain a Geo-tagged photo

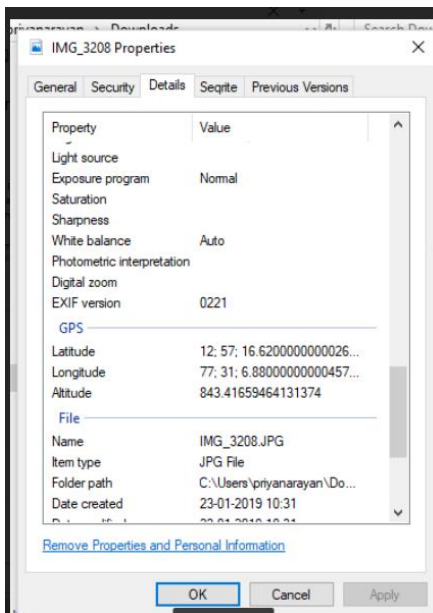

(1) In setting of your digital camera, set the location on

(2) If you are taking photos in a smart phone, then set the location on

(3) Take pictures after setting the location on.

(4) Download the pictures in a computer system and examine the properties. In properties, click on the details tab, scroll down to see GPS: you will see something like the picture provided below, the value entries in Latitude and longitude will determine the location in which the photo was taken.
